PROFESSIONAL SUMMARY

Highly motivated Network Support Executive with hands-on enterprise production support experience and rigorous CCNA & CEH training. Specialized in securing wireless network boundaries, troubleshooting guest captive portal/RADIUS logins, and administering multi-vendor firewalls (Palo Alto PAN-OS, Check Point Gaia, Cisco ASA). Proficient in policy configuration, NAT/PAT rules, Access Control Lists, vulnerability assessment, and syslog/threat monitoring. Seeking to apply practical network security and firewall engineering skills in an enterprise security team.

TECHNICAL SKILLS

SECURITY & FIREWALLS

Palo Alto (PAN-OS)

Check Point (Gaia)Cisco ASA

Security PoliciesNAT / PAT / ACLs

IPSec VPN / AnyConnect

IPS / IDS / URL FilterClusterXL HA

RECON & ANALYSIS

Wireshark / TcpdumpNmap / Nessus

Vulnerability Scan

Metasploit / Burp Pro

Syslog MonitoringPacket Inspection

DEVELOPMENT & OPS

Python (basics)Ansible (intro)

Git / GitHubLinux (RHEL/Kali)

Docker

PROFESSIONAL EXPERIENCE

Microsense Networks Private Limited

MAY 2026 – PRESENT

Network Support Executive (Deployed at ITC Grand Central Hotel)

Mumbai, India

- Support a live, high-traffic enterprise network, ensuring network security boundary integrity and wireless network uptime.
- Troubleshoot guest captive portal loops and user authentication failures against corporate RADIUS servers integrated with Property Management Systems (Opera PMS).
- Perform real-time packet capturing and analysis using Wireshark to isolate wireless network anomalies, rogue DHCP servers, and ARP spoofing indicators.
- Coordinate deployment and validation of wireless access points, verifying appropriate VLAN segmentation, Port Security, and SSID access controls.
- Maintain incident documentation logs and systematically escalate complex routing anomalies or firewall policy blocks to L3 engineering teams.

Multi-Vendor Firewall & Security Lab

TECHNICAL IMPLEMENTATION

Security Policy Design & Firewall Hardening

- Configured security policies based on App-ID and User-ID on **Palo Alto (PAN-OS)**; applied Antivirus, Vulnerability, and URL Filtering profiles for threat prevention; established Active/Passive HA failovers.
- Configured Gaia OS gateways managed via Check Point SmartConsole, deploying ClusterXL HA, static/dynamic NAT rules, and IPSec VPN tunnels.
- Administrated Cisco ASA CLI, configuring interface security levels, static/twice NAT, ACLs, IPSec site-to-site VPNs, and Remote Access AnyConnect VPNs.
- Hardened management planes across all virtual firewalls using SSH access lists and disabling insecure services.

IoT Vulnerability Research & Traffic Analysis

ONGOING RESEARCH

Vulnerability Assessment & Custom Tooling

- Researched Bluetooth HID injection vulnerabilities (CVE-2023-45866) using the BlueDucky framework, demonstrating keystroke injections on Android/Linux.
- Developed a Scapy-based deep packet traffic sniffer in Python to detect and log SYN flood attacks and clear-text credential leakage.
- Conducted reconnaissance, host scanning, and OWASP Top 10 web application testing using Nmap, Metasploit, and Burp Suite Pro.

VOLUNTEER EXPERIENCE

Robin Hood Army

DEC 2023 – PRESENT

Regional Coordinator (Bhandup–Mumbra Region)

Thane, India

- Coordinate volunteer distribution drives and food collection logistics, managing a team of 30+ volunteers under a zero-funds model.
- Schedule weekly distribution drives across regional hubs, resolving logistics bottlenecks.
- Support educational initiatives under the Robin Hood Academy, teaching basic Math, English, and Science to underprivileged street children.

EDUCATION

B.Sc. in Computer Science

NES Ratnam College of Arts, Science & Commerce

Mumbai, India | Graduated: Oct 2024

PROFESSIONAL TRAINING

✓ **CEH Training** – Connecting Cyber Networks (Completed)

✓ **CCNA Training** – Connecting Cyber Networks (Completed)
