PROFESSIONAL SUMMARY

Dynamic and detail-oriented Network Support Executive with hands-on enterprise production support experience and rigorous CCNA & CEH training. Specialized in maintaining high-availability wireless infrastructure, troubleshooting complex guest connectivity issues, and managing multi-vendor firewalls (Palo Alto PAN-OS, Check Point Gaia, Cisco ASA). Adept at configuring security policies, NAT, ACLs, and resolving network incidents under SLA constraints. Skilled in Python and Ansible scripting for network operations.

TECHNICAL SKILLS

NETWORKING & PROTOCOLS

OSPF / BGP

VLANs / Trunking

STP / RSTP / MSTP

Inter-VLAN Routing

Enterprise Wi-Fi

RADIUS / AAA

HSRP / EtherChannel

FIREWALLS & SECURITY

Palo Alto (PAN-OS)

Check Point (Gaia)

Cisco ASA

Security Policies

NAT / PAT / ACLs

IPSec VPN / AnyConnect

IPS / IDS / URL Filter

High Availability (HA)

TOOLS & OPERATING SYSTEMS

Linux (RHEL/Kali)

Wireshark / Tcpdump

Python (Netmiko/Scapy)

Ansible (intro)

Git / GitHub

Docker

PROFESSIONAL EXPERIENCE

Microsense Networks Private Limited

Network Support Executive (Deployed at ITC Grand Central Hotel)

MAY 2026 – PRESENT
Mumbai, India

- Deliver on-site 24/7 technical support for high-availability enterprise wireless and wired network infrastructure in a fast-paced hospitality environment, adhering to strict SLAs.
- Troubleshoot guest wireless client associations, DHCP lease availability, RF signal coverage issues, and captive portal redirect faults.
- Isolate guest authentication and credential failures against corporate AAA/RADIUS servers integrated with Property Management Systems (Opera PMS).
- Conduct deep packet capture diagnostics using Wireshark and syslog monitoring to analyze network latency, packet loss, and protocol anomalies.
- Coordinate deployment, hardware replacements, local configurations, and verification of wireless Access Points (APs) and local switches (VLANs, trunk ports, Port Security).
- Standardize incident logging and systematically escalate L3 routing or firewall policy conflicts to senior engineering and vendor support teams.

TECHNICAL PROJECTS & LABS

Network Security & Multi-Vendor Firewall Lab

TECHNICAL IMPLEMENTATION

Security Gateway Administration & Hardening

- Configured and managed security policies, standard/extended ACLs, static/dynamic NAT/PAT (Object NAT/ Twice NAT), and user authentication on **Palo Alto (PAN-OS)**, **Check Point (Gaia OS)**, and **Cisco ASA** gateways.
- Implemented URL filtering, threat prevention profiles (IPS/IDS), SSL decryption, and syslog logging rules.
- Deployed Active/Passive High Availability (HA) failover clusters to validate sub-second failover and state synchronization.
- Hardened device access planes using SSH, AAA (RADIUS/TACACS+), and management access control lists.

Enterprise Network Infrastructure Lab

SIMULATED ENVIRONMENT

Multi-Vendor Routing, Switching, & Automation

- Designed enterprise-style network topologies using Cisco IOS; configured multi-area **OSPF**, **BGP (EBGP/IBGP)**, **VLANs**, **trunking (802.1Q)**, and **Inter-VLAN Routing**.
- Configured Spanning Tree (RSTP/MSTP), EtherChannel link aggregation (LACP), and HSRP for gateway redundancy.
- Implemented site-to-site **IPSec VPN** tunnels in simulated WAN environments to encrypt traffic flows.
- Automated daily device configuration backups and interface health checks using **Python (Netmiko)** and basic **Ansible** playbooks.

VOLUNTEER EXPERIENCE

Robin Hood Army

DEC 2023 – PRESENT

Regional Coordinator (Bhandup–Mumbra Region)

Thane, India

- Coordinate volunteer distribution drives and food collection logistics, managing a team of 30+ volunteers under a zero-funds model.
- Schedule weekly distribution drives across regional hubs, resolving logistics bottlenecks.
- Support educational initiatives under the Robin Hood Academy, teaching basic Math, English, and Science to underprivileged street children.

EDUCATION

B.Sc. in Computer Science

NES Ratnam College of Arts, Science & Commerce

Mumbai, India | Graduated: Oct 2024

PROFESSIONAL TRAINING

- ✓ **CCNA Training** – Connecting Cyber Networks (Completed)
- ✓ **CEH Training** – Connecting Cyber Networks (Completed)
