

PROFESSIONAL SUMMARY

Detail-oriented professional with comprehensive training in CCNA and CEH, possessing a strong foundation in network infrastructure, security operations, and Linux administration. Proven ability to design, configure, and troubleshoot complex network environments and conduct rigorous security assessments. Adept at leveraging automation (Python/Bash) to optimize network performance and enhance security posture. Seeking an entry-level role in Network Engineering, NOC, or SOC to apply technical expertise in maintaining resilient and secure enterprise infrastructures.

TECHNICAL PROJECTS & HANDS-ON EXPOSURE

Enterprise Network Infrastructure Simulation

TECHNICAL IMPLEMENTATION

Multi-Vendor Routing & Switching Environment

- Designed and implemented a multi-area **OSPF and BGP** routing architecture to simulate high-availability enterprise connectivity.
- Configured **VLANs, Inter-VLAN routing, and STP** to optimize Layer 2 traffic flow and ensure network redundancy.
- Hardened network devices by implementing **SSH, secure management planes, and granular Access Control Lists (ACLs)**.
- Executed **NAT/PAT** configurations to facilitate secure internet access for internal network segments.
- Implemented **IPSec site-to-site VPN** tunnels in a simulated WAN scenario to ensure secure data transmission.

Network Traffic Analysis & Security Hardening

ONGOING RESEARCH

Protocol Analysis & Threat Detection

- Utilized **Wireshark and Scapy** to perform Deep Packet Inspection (DPI) for identifying unauthorized network activities and protocol anomalies.
- Analyzed TCP/IP handshakes and packet headers to detect potential **SYN floods** and man-in-the-middle (MitM) indicators.
- Developed custom **Python scripts** for automated log parsing and real-time traffic monitoring.
- Automated repetitive configuration tasks using **Ansible**, improving consistency and reducing manual configuration effort.

TECHNICAL SKILLS

Networking

OSPF / BGP VLANs / STP
HSRP / EtherChannel
IPv4 & IPv6 Subnetting

Security

ACLs / NAT / PAT
VPN (IPSec/SSL)
Firewall (Cisco ASA)
Penetration Testing

Tools & Platforms

Cisco IOS Linux (RHEL/Kali)
Wireshark Ansible / Git
Docker

EDUCATION

B.Sc. Computer Science

NES Ratnam College
Graduated Oct 2024

PROFESSIONAL TRAINING

CCNA Training

Connecting Cyber Networks

CEH Training

Connecting Cyber Networks

LANGUAGES

English Hindi Marathi
